Welcome to our website

Ask our Veterinarians, Call us at +1 800 559 6580

We are focused on four major areas of care: complete physical exams, administering vaccinations, diagnosing common ailments (fleas, ear infections, etc) and educating the public on preventing illnesses. Pets that require more advanced care such as x-rays, surgery, or hospitalization are referred to a full service veterinary practice.

AFFORDABLE SERVICES

Whether it's puppy's first vaccination or a wellness checkup for your newly adopted senior cat, Dog & Cat Clinic is dedicated to offering a full range of services at fair prices.

QUALIFIED STAFF

Our professional staff is always ready to help your pets. Our staff understands that most pet owners consider their animals family members.

DIGITAL RADIOGRAPHY

Radiology - or X-rays - help our veterinarians evaluate musculoskeletal, cardiovascular (cardiopulmonary), gastrointestinal, reproductive and urinary systems.

SERVICES WE OFFER

SURGICAL OPERATIONS

These operations are done at our clinic with the consent of the owner and considering the severity of disease the pet is suffering from.
